May Meeting

At May's meeting, those planning to perform in OCMC's June Magic show got a chance to get up and perform, hone their routine and get critiqued. Performers included, Jaron, Brad, Brett, Mel, and Ed.

OCMC would like to welcome three new members to the club.

OCMC would like to welcome our newest member, Brett Bolich, to our club. Brett is a full-time children's performer and Magic Castle member. He performs under the stage name Brettso the Great. He got interested in magic at an early age after receiving his first magic set. He specializes in family friendly shows and has performed at hundreds of birthday parties and school events in the Orange County area.

He will be performing for the first time at the Castle soon at their Saturday family brunch. We look forward to helping him continue to improve his show and learning from him as well. We are pleased that not only did he join OCMC at our last meeting, but he came prepared with an act and will be performing in our June show! Welcome, Brett!

Jaron Lee joined the club just a couple months ago and now runs the monthly raffle. Jaron has worked at the Magic Shop at Knott's Berry Farm alongside our club President Julian Devero. Julian has inspired Jaron and with great tips and feedback leading to an increasing interest in the art of close-up magic. He currently works at Universal Studios. Jaron is very excited to be a part of June's Magic Show—it will be his first!

George Reis also joined recently. He only became interested in magic three years ago when his wife gifted him lessons at the Magic Caste for his 60th birthday. He'd seen many magic acts before, including Lance Burton; but, it was when he started taking lessons that he was bitten by the magic bug. Now, George says that he is fully immersed in magic and constantly working to improve his performance skills. George has a background in forensics (He's had his own business as an expert witness in forensics video and photographic analysis for the past 18 years, also providing training in the field). George has come up with some routines that combine his forensic background and magic.
